Food Safety Is A Priority

BRC Certification Grade: A

We know the importance of partnering with a company that shares your prioritization of food safety. At Fox Valley Farms our expertise goes beyond warehousing and delivery.

Our Fox Valley Farms Aurora facility is proud to hold one of the industry's most rigorous certification standards - BRC Storage and Distribution (GFSI Approved Certification Schema).

This standard assesses policies and procedures related to food defense, temperature, monitoring, allergen control, food recalls plans, sanitation and employee training - to name a few.

In order to receive this certification, all aspects of our operations have been aligned with the principles of HACCP, the regulatory requirements of the Food Safety Modernization Act (FSMA), and the standards established by BRC.
